

## **Lavender Daze Cellulite Treatment**

This treatment focuses on the hips, thighs, calves, ankles, and the back of the arms. First, our organic seaweed, from Main Coast Sea Vegetables, combines the detoxifying properties of sea algae and the natural revitalization properties of seaweed, provide metabolic stimulation of the skin. The seaweed treatment is followed up by a full body Signature Massage with Wright Touch Naturals Lavender Daze aromatherapy oil.

We use three types of lavender essential oil for this anti cellulite special. These oils are particularly well known for their ability to promote growth of new cells and exert a balancing action on sebum. Seaweed and algae are great for super hydrating the body. They are perfect to help prepare your hips and legs for the shorts and swim suits of summer. They are also useful in rehydrating the body after chemo-therapy. Seaweed is rich in amino acids, vitamins and minerals. These nutrients are all absorbed through your skin thereby increasing metabolism, revitalizing dermal elasticity, and minimize the dimpling of your skin.

How many nights have you gone to bed totally frazzled? We promise, if you come into our office and receive our Lavender & Seaweed Cellulite Treatment, you will leave our office totally dazzled. This treatment is specially designed to soothe your mind and relax your whole body while rejuvenating your skin for summer. Visit our website at [www.wrighttouchweb.com](http://www.wrighttouchweb.com) to view a full range of services and book your appointment online today, or call our office at 478-442-0014.
